BUICK DESIGN

BUICK VALVE-IN-HEAD POWER

The rightness of the Buick Valve-in-Head motor and not the enthusiasm of its salesmen has made the Buick conspicuous for leadership.

This new four has a Buick Valve-in-Head motor (with electric starter) which develops thirty-five horse power on brake test and is so reliable for rugged service that no apology is necessary among "men who know Buick."

Its lines are beautiful. Finish and color are exceptional. Deep, tufted black genuine leather upholstery. Covered floor and running board, with aluminum bindings, give a trimness of appearance that is peculiarly Buick.

Body, hood, fenders and running gear are painted a glossy, long-wearing black; wheels are black with white stripes. Tires 31x4 inches.

All Buicks have the Delco lighting and starting system. There is none better.

NEWS NOTES FROM NEIGHBORING CITIES

The following deed was recorded last week with County Clerk C. N. Laughridge of Gilliam County: Wm. C. Cox, et ux, Heppner to heirs of George E. Wright, Heppner, 160 acres \$700.

Thrashing At Sand Hollow.
A thrashing outfit belonging to M. Lantus, of Union is here enroute to the Sand Hollow country where about 50 days work has been contracted for. Thrashing will start on the Harry Duval place.—Echo News.

Pendleton has been having rather a warm time lately between the council and the water board, the disagreement arising over the complaints lodged by the chairman of the sewer committee. The sewer committee claim the water board does not allow them enough water to properly flush the sewers and it was put up to the council to settle the matter.

Howard Will Run.
Prof. W. C. Howard, principal of the Stanfield schools, whose name was written in at the primary election as democratic choice for county school superintendent, has qualified and says that he will make an active campaign for the position. Mr. Howard has lived in Umatilla county many years and was formerly president of Columbia college at Milton.—Echo News.

Never Saw Crops Better.
F. M. Rounds and J. E. Johnson of the Cottonwood country were here for a short time this week. Mr. Rounds has lived in the northern part of Grant county for the last 31 years and he says that during that time he never saw crops so good as now. He never saw grass and range so good. He never saw grain so good and he never saw garden stuff grow like it does this year. Fruit is a failure but everything else is just simply fine.—Blue Mountain Eagle.

Butter Creek Road Bad.
Many protests are being filed regarding the condition of the road along Butter creek this side of the Jarman ranch. For about three miles the road is badly cut up and some of the chuck holes are so deep that a wagon drops in to the axle. There is much heavy teaming between the upper Butter creek district and Echo over this road, but unless repairs are made soon the road will be impassable for freight teams.—Echo News.

New Editor at Lostine.
Howard W. Shutt sold the Lostine Reporter last week to James W. Boyd, a new comer from the central states. Mr. Boyd came to Oregon hoping the change would be for the benefit of the health of a child and was much pleased with Walla Walla county, where he should do well. Mr. Shutt at Joseph this week, helping Editor W. C. Black in the Herald office. Major S. P. Shutt, since selling the Herald, is planning on going back to the home of his boyhood in Virginia, and Howard probably will go also.—Enterprise Record Cheffain.

Gilliam Will Have Unusual Crop This Year.

Statistics submitted by the Bureau of Labor report that Oregon's wheat crop this year will be worth \$13,097,230, and of this amount Gilliam county will receive her share. Figure it out.

Harvest has been in progress in the northern part of the county for several days past and many reports have come into this office as to the yield per acre, many reports going as high as 50 bushels and a good quality. Although heading had been started in and around Condon several have had to delay on account of the rank, green under growth caused by the heavy rains of the spring and summer.

Grain which has been brought in is selling for \$1.03 and as high as \$1.05 in some cases, and the current opinion is that it will go to \$1.50 before spring.—Condon Globe.

Has Auto Accident.
M. F. Shurtle of Arlington had what might have been a most serious accident with his Maxwell Thursday morning. While turning a corner the left front wheel gave way precipitating the car to the ground. The entire wheel was shattered but as luck would have it none of the occupants were hurt.—Condon Globe.

There was a very large amount of grain sold in Sherman county last Saturday. The bulk of grain sold in the Grass Valley and Kent neighborhood brought \$1.04 per bushel, while in the Wasco vicinity the price realized was \$1.05. This is the highest price that grain has sold for in Sherman county for a number of years.—Grass Valley Journal.

MONEY TO LOAN ON FIRST FARM MORTGAGES

THOS. HAYWARD IS SUICIDE AT MONUMENT

Mental derangement resulting from poor health, led Thomas Hayward of Monument to the rash act of suicide at his home last Monday. With a double-barrel shotgun he destroyed himself. He placed the muzzle to his head and pulled the trigger the charge completely tearing away the entire top of his head. Death resulted immediately.

Deceased was a man about 58 years of age. He had been in poor health for a long time. Recently, he had been taken away in hopes that a change of scenes and conditions might cure the melancholia which seemed to possess him. On his return he seemed much better, and friends and relatives entertained hope that his full recovery would follow. He was sitting on the front porch Monday morning apparently in good spirits. Mrs. Hayward suggested that he go to his room and lie down and rest. This was about eleven o'clock in the morning. He went through the kitchen, where there was several working and on into the bedroom. In a few moments the shot was heard and upon investigation it was found that he had committed suicide.

Officers were notified. Deputy Sheriff Keeney did not believe that an inquest was necessary as it was a clear case of suicide.

The Eagle telephoned to Monument and asked what kind of a man Tom Hayward was and from several sources the reply came "None Better." He stood well and his many friends were completely shocked at the sad and tragic death. He lived about eight miles northwest of Monument and was a resident of the county for 25 years. He was well known and universally liked. He was said to be a good citizen, a good neighbor and a good man. He is survived by a wife and several children. He was a member of the Woodman lodge.

In a normal condition Tom Hayward would have never even contemplated so rash an act. Ill health, however, undermined his constitution and developed a condition of melancholia which so often leads to suicidal tendencies.—Canyon City Blue Mountain Eagle.

CHURCHILL ENDORSES PENDLETON NORMAL

Salem, Ore., Aug. 15—J. A. Churchill, State Superintendent of public instruction, is asking the voters of the state to support the initiative measure on the ballot this fall providing for the establishment of a standard normal school at Pendleton. The state superintendent's last report shows that only thirteen per cent of the grade teachers of the state are normal school graduates and he, more than any other man, appreciates the need for more competent instruction particularly in the rural schools.

"Oregon's greatest need for its rural schools is the teacher who has had full preparation to do her work," he said in making public his endorsement of the measure. "Such preparation can best come through normal school training."

"I trust that the voters of the State will assist in raising the standard of our schools by establishing a State Normal School at Pendleton. The location is central, the interest of the people of Pendleton in education most excellent, and the large number of pupils in the public schools will give ample opportunity to all students to get the same amount of teaching practice required in a standard normal school."

Wanted at Once

A high grade local salesman who is worth and can earn from \$5.00 to \$10.00 a day. BIG GAME RIFLES

FOR dropping a bighorn across a canon, or stopping a charging grizzly—range, precision and penetration combined with quick, positive action are the qualities that have made these rifles famous.

Remington UMC High Power Autoloading Rifle—Five shots, (simply press trigger for each shot), solid breech, hammerless positive safety device; take-down simple and easy without tools.

Remington UMC High Power Slide Action Repeater—the only big game arm of its type—Six shots; solid breech, hammerless, magazine ensuring compactness, balance and absolute safety.

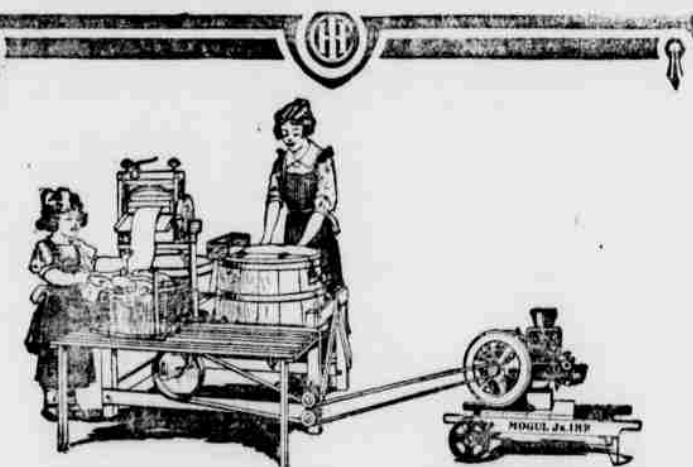

Big game hunters place more responsibility upon their arms than any other sportmen in the world. The prestige of these two Remington UMC High Power Rifles with this group of critical sportmen is significant—and each open season shows a steady increase in the number of men who shoot these modern rifles.

Sold by your home dealer and 679 other leading merchants in Oregon.

Clean and oil your gun with REM OIL, the combination Powder Solvent, Lubricant and Rust Preventative.

Hitch a Mogul Jr. to Your Heavy Housework

YOU have long wanted a clean, simple little engine easy to handle on many jobs. Here it is—the Mogul Jr. 1-H. P.—the proper engine for the housewife. Let it take the dread out of wash day. Let it do your pumping, running cream separator, etc. Make a Mogul Jr. your drudge.

Mogul Jr. is mounted on trucks. It is so simple that a boy or girl can start and operate it—a girl can move it. It is throttle governed—starts and runs on the magneto—no batteries are needed—no switch to close—no wires to work loose or give trouble—operates on gasoline or motor spirits.

It is clean. The enclosed crank case covers the gears and keeps all the oil inside where it belongs.

Every detail makes this the most satisfactory labor saver for the housewife—at a reasonable price. Don't delay. Ask your IHC dealer to show you a Mogul Jr. The larger sizes, 1 to 50-H. P. and tractors 8-16-H. P. to 30-60-H. P., are kerosene engines.
